# VisEra Technologies Company Ltd.

Financial Statements for the Years Ended December 31, 2022 and 2021 and Independent Auditors' Report

# **INDEPENDENT AUDITORS' REPORT**

The Board of Directors and Shareholders VisEra Technologies Company Ltd.

#### Opinion

We have audited the accompanying financial statements of VisEra Technologies Company Ltd. (the "Company"), which comprise the balance sheets as of December 31, 2022 and 2021, and the statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

#### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended December 31, 2022. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter of the Company's financial statements for the year ended December 31, 2022 is stated as follows:

#### Contract Assets and Revenue Recognition

The majority of the Company's revenue is generated from color filter and optical coating, which are manufactured according to the customized specifications agreed in the contractual agreement. The customers have obtained control over the products during manufacturing process. As such, revenue and contract assets are recognized over time in accordance with the requirements under paragraph 35(b) of IFRS 15. Refer to Notes 4, 5 and 17 to the accompanying financial statements for the details of the accounting policies related to the

contract assets and revenue recognition. The Company recognizes contract assets and revenue at the end of each month based on progress towards completion. Since the abovementioned process involves estimates and manual controls, there is a risk that contract assets and revenue may not be recognized correctly. Thus, the Company's contract assets and revenue recognition was identified as a key audit matter.

Our audit procedures performed in respect of the above key audit matter included the following:

- 1. We obtained an understanding and tested the effectiveness of the design and implementation of key internal controls over contract assets and revenue recognition.
- 2. We obtained an understanding and evaluated the reasonableness of management's assumption and policy over contract assets and revenue recognition.
- 3. We evaluated the reasonableness of the underlying data used in calculations for the percentage of completion.
- 4. We performed a retrospective review of management's standard cost estimates.

#### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the Audit Committee, are responsible for overseeing the Company's financial reporting process.

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the year ended December 31, 2022, and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audits resulting in this independent auditors' report are Shang-Chih Lin and Ming-Yuan Chung.

Deloitte & Touche Taipei, Taiwan Republic of China

#### Notice to Readers

The accompanying financial statements are intended only to present the financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally applied in the Republic of China.

For the convenience of readers, the independent auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' report and financial statements shall prevail.

#### NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021 (In Thousands of New Taiwan Dollars, Unless Specified Otherwise)

#### 1. GENERAL INFORMATION

VisEra Technologies Company Ltd. (the "Company"), a company limited by shares, was incorporated in Hsinchu City on December 1, 2003. The Company is a dedicated optical foundry mainly engaged in manufacturing electronic spare parts and in researching, developing, designing, manufacturing, selling, packaging and testing of color filters.

The Company's stock has been approved by Taipei Exchange (TPEx) and listed on the Emerging Stock Board (ESB) since April, 2021. The initial listing application of the Company's shares was approved in the meeting of the Securities Listing Review Committee of the Taiwan Stock Exchange (TWSE) on March 8, 2022, and approved for issuance by the Board of Directors of the TWSE on March 22, 2022. The Company's stock has been listed on the Taiwan Stock Exchange (TWSE) since June 30, 2022.

The financial statements are presented in the Company's functional currency, the New Taiwan dollar.

#### 2. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors on February 22, 2023.

#### 3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the "IFRSs") endorsed and issued into effect by the Financial Supervisory Commission (FSC)

The initial application of the amendments to the IFRSs endorsed and issued into effect by the FSC did not have a significant effect on the Company's accounting policies.

b. The IFRSs endorsed by the FSC for application starting from 2023

New IFRSs	Effective Date <u>Announced by IASB</u>
Amendments to IAS 1 "Disclosure of Accounting Policies" Amendments to IAS 8 "Definition of Accounting Estimates" Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"	January 1, 2023 (Note 1) January 1, 2023 (Note 2) January 1, 2023 (Note 3)

- Note 1: The amendments will be applied prospectively for annual reporting periods beginning on or after January 1, 2023.
- Note 2: The amendments are applicable to changes in accounting estimates and changes in accounting policies that occur on or after the beginning of the annual reporting period beginning on or after January 1, 2023.

- Note 3: Except for deferred taxes that will be recognized on January 1, 2022 for temporary differences associated with leases and decommissioning obligations, the amendments will be applied prospectively to transactions that occur on or after January 1, 2022.
- c. New IFRSs in issue but not yet endorsed and issued into effect by the FSC

New IFRSs	Effective Date <u>Announced by IASB (Note 1)</u>
Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture"	To be determined by IASB
Amendments to IFRS 16 "Leases Liability in a Sale and Leaseback"	January 1, 2024 (Note 2)
Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"	January 1, 2024
Amendments to IAS 1 "Non-current Liabilities with Covenants"	January 1, 2024

- Note 1: Unless stated otherwise, the above New IFRSs are effective for annual reporting periods beginning on or after their respective effective dates.
- Note 2: A seller-lessee shall apply the Amendments to IFRS 16 retrospectively to sale and leaseback transactions entered into after the date of initial application of IFRS 16.

As of the date the financial statements were issued, the Company is continuously assessing the possible impact that the application of other standards and interpretations will have on the Company's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

# 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Statement of Compliance**

The financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs as endorsed and issued into effect by the FSC.

# **Basis of Preparation**

The financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair value, as explained in the accounting policies below.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- a. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- b. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- c. Level 3 inputs are unobservable inputs for an asset or liability.

#### **Classification of Current and Noncurrent Assets and Liabilities**

Current assets include:

a. Assets held primarily for the purpose of trading;

- b. Assets expected to be realized within 12 months after the reporting period; and
- c. Cash and cash equivalents unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

#### **Current liabilities include:**

- a. Liabilities held primarily for the purpose of trading;
- b. Liabilities due to be settled within 12 months after the reporting period; and
- c. Liabilities for which the Company does not have an unconditional right to defer settlement for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Assets and liabilities that are not classified as current are classified as noncurrent.

#### **Foreign Currencies**

In preparing the Company's financial statements, transactions in currencies other than the Company's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Such exchange differences are recognized in profit or loss in the year in which they arise.

Non-monetary items measured at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Exchange differences arising on the retranslation of non-monetary items are included in profit or loss for the year except for exchange differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income, in which case, the exchange differences are also recognized directly in other comprehensive income.

Non-monetary items that are measured at historical cost in foreign currencies are not retranslated.

#### Inventories

Inventories are stated at the lower of cost or net realizable value. Inventory write-downs are made on an item-by-item basis, except where it may be appropriate to group similar or related items. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and necessary selling costs. Inventories are recorded at weighted-average cost on the balance sheet date.

#### **Property, Plant and Equipment**

Property, plant and equipment are initially measured at cost and subsequently measured at cost less accumulated depreciation and accumulated impairment loss. Costs include any incremental costs that are directly attributable to the construction or acquisition of the item of property, plant and equipment.

Properties, plant and equipment in the course of construction are carried at cost, less any recognized impairment loss. Such assets are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

The depreciation of property, plant and equipment is recognized using the straight-line method. Each significant part is depreciated separately. The estimated useful lives, residual values and depreciation methods are reviewed at the end of each reporting period, with the effects of any changes in the estimates accounted for on a prospective basis.

On derecognition of an item of property, plant and equipment, the difference between the sales proceeds and the carrying amount of the asset is recognized in profit or loss.

#### **Intangible Assets**

a. Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis. The estimated useful lives, residual values, and amortization methods are reviewed at the end of each reporting period, with the effect of any changes in the estimates accounted for on a prospective basis.

b. Derecognition of intangible assets

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

#### Impairment of Property, Plant and Equipment, Right-of-use Asset and Intangible Assets

At the end of each reporting period, the Company reviews the carrying amounts of its property, plant and equipment, right-of-use asset and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Corporate assets are allocated to the individual cash-generating units on a reasonable and consistent basis of allocation, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount, with the resulting impairment loss recognized in profit or loss.

When an impairment loss is subsequently reverses, the carrying amount of the corresponding asset, cash-generating unit or assets related to contract costs is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined had no impairment loss been recognized on the asset, cash-generating unit or assets related to contract costs in prior years. A reversal of an impairment loss is recognized in profit or loss.

#### **Financial Instruments**

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly

attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

#### **Financial Assets**

The classification of financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. Regular way purchases or sales of financial assets are recognized and derecognized on a trade date or settlement date basis for which financial assets were classified in the same way, respectively. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

a. Measurement categories

Financial assets are classified into the following categories: Financial assets at FVTPL and financial assets at amortized cost.

1) Financial assets at FVTPL

Derivative financial instruments that do not meet the criteria for hedge accounting are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. Fair value is determined in the manner described in Note 24.

2) Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- a) The financial assets are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b) The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost (including cash and cash equivalents, accounts receivable (including related parties) at amortized cost, other receivables (including related parties) and other non-current assets) are measured at amortized cost, which equals the gross carrying amount determined using the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Cash equivalents include time deposits, which are highly liquid, readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These cash equivalents are held for the purpose of meeting short-term cash commitments.

b. Impairment of financial assets and contract assets

The Company recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including accounts receivable), as well as contract assets.

The Company always recognizes lifetime expected credit losses (ECLs) for accounts receivable and contract assets. For all other financial instruments, the Company recognizes lifetime ECLs when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

Expected credit losses reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For internal credit risk management purposes, the Company considers the following situations as indication that a financial asset is in default without taking into account any collateral held by the Company:

- 1) Internal or external information shows that the debtor is unlikely to pay its creditors.
- 2) Financial asset is more than 90 days past due unless the Company has reasonable and corroborative information to support a more lagged default criterion.

The impairment loss of all financial assets is recognized in profit or loss by a reduction in their carrying amounts through a loss allowance account.

c. Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss.

#### **Equity Instruments**

Equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

#### **Financial Liabilities**

a. Subsequent measurement

Financial liabilities are subsequently measured either at amortized cost using effective interest method or at FVTPL.

Financial liabilities measured at FVTPL are derivative financial instruments that do not meet the criteria for hedge accounting, and they are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. Fair value is determined in the manner described in Note 24.

Financial liabilities other than those held for trading purposes and designated as at FVTPL are subsequently measured at amortized cost at the end of each reporting period.

b. Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

#### **Derivative Financial Instruments**

The Company enters into foreign exchange forward contracts to manage its exposure to foreign exchange rates.

Derivatives are initially recognized at fair value at the date on which the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument. When the fair value of a derivative financial instrument is positive, the derivative is recognized as a financial asset; when the fair value of a derivative financial instrument is negative, the derivative is recognized as a financial liability.

#### **Revenue Recognition**

#### Revenue from manufacturing color filter and optical coating

The Company identifies contracts with customers and recognizes revenue when performance obligations are satisfied.

The manufacturing of color filter is according to the customized specifications agreed in the contractual agreement. The customers have obtained control over the products during manufacturing process. As such, revenue and contract assets are recognized over time. Revenue from manufacturing color filter is measured at the fair value of the consideration received or receivable, and is reduced for estimated customer returns, rebates and other similar allowances.

Provision for estimated sales returns and other allowances is generally made and adjusted based on historical experience and the consideration of varying contractual terms to recognize refund liabilities, which is classified under accrued expenses and other current liabilities.

In principle, the averaged payment terms granted to customers are 30 days to 90 days. Due to the short term nature of the receivables from color filter and optical coating manufacturing revenue with the immaterial discounted effect, the Company measures them at the original invoice amounts without discounting.

#### Leases

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease.

a. The Company as lessor

Rental income from operating lease is recognized on a straight-line basis over the term of the lease.

b. The Company as lessee

The Company recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease, except for short-term leases and low-value asset leases accounted for applying a recognition exemption where lease payments are recognized as expenses on a straight-line basis over the lease terms.

Right-of-use assets are initially measured at cost, which comprises the initial measurement of lease liabilities adjusted for lease payments made at or before the commencement date, plus an estimate of costs needed to restore the underlying assets. Subsequent measurement is calculated as cost less accumulated depreciation and accumulated impairment loss and adjusted for changes in lease liabilities as a result of lease term modifications or other related factors. Right-of-use assets are presented on a separate line in the balance sheets.

Right-of-use assets are depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms. However, if leases transfer ownership of the underlying assets to the Company by the end of the lease terms or if the costs of right-of-use assets reflect that the Company will exercise a purchase option, the Company depreciates the right-of-use assets from the commencement dates to the end of the useful lives of the underlying assets.

Lease liabilities are initially measured at the present value of the lease payments, which comprise fixed payments, variable lease payments which depend on an index or a rate and the exercise price of a purchase option if the Company is reasonably certain to exercise that option. The lease payments are discounted using the lessee's incremental borrowing rates.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is a change in a lease term, a change in future lease payments resulting from a change in an index or a rate used, or a change in the assessment of an option to purchase an underlying asset to determine those payments, the Company remeasures the lease liabilities with a corresponding adjustment to the right-of-use-assets. Lease liabilities are presented on a separate line in the balance sheets.

Variable lease payments that do not depend on an index or a rate are recognized as expenses in the periods in which they are incurred.

#### **Borrowing costs**

Borrowing costs directly attributable to an acquisition, construction or production of qualifying assets are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other than those stated above, all other borrowing costs are recognized in profit or loss in the period in which they are incurred.

#### **Government grants**

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants related to income are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes the related costs that the grants intend to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

The benefit of a government loan received at a below-market rate of interest is treated as a government grant measured as the difference between the proceeds received and the fair value of the loan based on prevailing market interest rates.

#### **Employee Benefits**

a. Short-term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related services.

#### b. Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as expenses when employees have rendered service entitling them to the contributions.

#### **Share-based Payment Arrangements**

The fair value at the grant date of the employee share options is expensed on a straight-line basis over the vesting period, based on the Company's best estimates of the number of shares or options that are expected to ultimately vest, with a corresponding increase in capital surplus - employee share options. The expense is recognized in full at the grant date if the grants are vested immediately. The grant date of issuing employee share options is the date on which the number of shares that the employees can purchase is confirmed.

At the end of each reporting period, the Company revises its estimate of the number of employee share options that are expected to vest. The impact of the revision of the original estimates is recognized in profit or loss such that the cumulative expenses reflect the revised estimate, with a corresponding adjustment to capital surplus - employee share options.

#### Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

#### Current tax

According to the Income Tax Law in the ROC, an additional tax on unappropriated earning is provided for in the year the shareholders approve to retain earnings.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

#### Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

#### Current and deferred taxes

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred taxes are also recognized in other comprehensive income or directly in equity, respectively.

# 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, which are described in Note 4, the management is required to make judgments, estimations, and assumptions on the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revisions affect only that period or in the period of the revisions and future periods if the revisions affect both current and future periods.

# **Critical Accounting Judgements**

#### Revenue recognition

For every contract, the Company determines its performance obligations are satisfied over time based on the conditions in the contract and applicable regulations described in Note 4.

#### **Key Sources of Estimation Uncertainty**

a. Estimation of sales returns and allowances

Sales returns and other allowance is estimated and recorded based on historical experience and in consideration of different contractual terms. The amount is deducted from revenue in the same period the related revenue is recorded. The Company periodically reviews the reasonableness of the estimates.

b. Estimated impairment of trade receivables and contract assets

The provision for impairment of trade notes and accounts receivable is based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and in selecting the inputs to the impairment calculation, based on the Company's past experience, current market conditions as well as forward looking information at the end of each reporting period. Where the actual future cash flows are less than expected, a material impairment loss may arise.

c. Impairment of property, plant and equipment

In the process of evaluating the potential impairment of tangible assets, the Company determines the independent cash flows, useful lives, expected future revenue and expenses related to the specific asset groups. Any change in these estimates based on changed economic conditions or business strategies could result in significant impairment charges or reversal in future years.

# 6. CASH AND CASH EQUIVALENTS

	December 31			
	2022	2021		
Deposits in banks Petty cash	\$ 11,949,442 <u>10</u>	\$ 3,232,614 <u>10</u>		
	<u>\$ 11,949,452</u>	<u>\$ 3,232,624</u>		

The market rate intervals of cash in the bank at the end of the year were as follows:

	Decem	ber 31
	2022	2021
Bank balance	0.001%-4.35%	0.001%-0.41%

Deposits in banks consisted of highly liquid time deposits that were readily convertible to known amounts of cash and were subject to an insignificant risk of changes in value.

December 31

# 7. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

		Decemb	er 31
	—	2022	2021
Financial assets			
Mandatorily measured at FVTPL Derivative financial assets (not under he Forward exchange contracts	edge accounting)	<u>\$ 13,257</u>	<u>\$ 6,003</u>
Financial liabilities			
Held for trading Derivative financial liabilities (not unde Forward exchange contracts	er hedge accounting)	<u>\$ 2,079</u>	<u>\$ 86</u>
The Company entered into forward excha exchange rates. These forward exchange c the Company did not apply hedge account	contracts did not meet the criteri	a for hedge accou	
Outstanding forward exchange contracts c	consisted of the following:		
	Maturity Date		et Amount ousands)

#### 8. ACCOUNTS RECEIVABLE

	December 31		
	2022	2021	
At amortized cost			
Accounts receivable from unrelated parties Less: Allowance for impairment loss	\$ 651,579 (277) 651,302	\$ 1,196,664 (232) 1,196,432	
Accounts receivable from related parties	112,820	117,823	
	<u>\$ 764,122</u>	<u>\$ 1,314,255</u>	

The average payment terms granted to customers are 30 days to 90 days from the end of the month when the invoice is issued. No interest is charged on accounts receivables. Aside from recognizing impairment loss for credit-impaired accounts receivable, the Company recognizes loss allowance based on the expected credit loss ratio of customers by different risk levels. Such risk levels are determined with reference to factors of historical loss ratios and customers' current financial conditions and business outlook (such as economic outlook of the industries in which the customers operate and future changes in purchasing requirements during a certain period, etc.).

The Company writes off accounts receivable when there is evidence indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For accounts receivables that have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

#### Aging analysis of accounts receivable, net

	December 31			
	2022	2021		
Not past due 1-180 days	\$ 731,4 32,6			
Total	<u>\$ 764,1</u>	<u>22</u> <u>\$ 1,314,255</u>		

The above aging analysis was based on the past due dates.

Aging analysis of accounts receivable that is past due but not impaired

	December 31	
	2022	2021
1-180 days	<u>\$ 32,649</u>	<u>\$ 82,298</u>

The above aging analysis was based on the past due dates.

#### Movements of the loss allowance

	For the Year Ended December 31		
	2022	2021	
Balance on January 1 Provision (Reversal)	\$ 232 45	\$ 834 (602)	
Balance on December 31	<u>\$ 277</u>	<u>\$ 232</u>	

For the years ended December 31, 2022 and 2021, the changes in loss allowance were mainly due to the variations in the accounts receivable book value of different risk levels.

# 9. INVENTORIES

	December 31	
	2022	2021
Raw materials	<u>\$ 85,228</u>	<u>\$ 96,207</u>

Write-down of inventories to net realizable value and reversal of write-down of inventories resulting from the increase in net realizable value were included in the cost of revenue. The amounts are as follows:

	For the Year Ended December 31		
	2022	2021	
Cost of inventories sold Inventory write-downs (reversed)	<u>\$5,749,908</u> <u>\$1,089</u>	<u>\$ 5,460,206</u> <u>\$ (2,639</u> )	

#### 10. PROPERTY, PLANT AND EQUIPMENT

#### **Buildings**

Accumulated depreciation

Balance at January 1, 2021 Depreciation Reclassification	\$ 48,398 1,016 (38,654)
Balance on December 31, 2021	<u>\$ 10,760</u>
Carrying amount at December 31, 2021	<u>\$ 4,704</u> (Concluded)

Operating leases relate to leases of buildings with lease terms between 1 and 5 years with an option to extend for another 18 months. The lessees do not have bargain purchase options to acquire the assets at the expiry of the lease periods.

The maturity analysis of lease payments receivable under the above operating leases is as follows:

	December 31	
	2022	2021
Year 1	\$ 19,824	\$ 16,992
Year 2	19,824	-
Year 3	19,824	
	<u>\$ 59,472</u>	<u>\$ 16,992</u>

To reduce the residual asset risk related to buildings at the end of the relevant lease, the Company follows its general risk management strategy.

No impairment assessment was performed for the years ended December 31, 2022 and 2021 as there was no indication of impairment.

Depreciation expense is provided on a straight-line basis over the following useful lives:

Buildings

20 years

#### **11. LEASE ARRANGEMENTS**

a. Right-of-use assets

	December 31	
	2022	2021
Carrying amount

	2022	2021
Land	1.36%-1.78%	1.36%-2.14%
Buildings	1.73%	1.03%-1.11%
Transportation equipment	1.08%	1.08%

#### c. Material terms of right-of-use assets

The Company leases land and buildings mainly for the use of plants and offices with lease terms of 2 to 30 years. The Company has options to renew at the end of the lease terms. The lease contracts for land located in the R.O.C. specify that lease payments will be adjusted every 2 years on the basis of changes in announced land value prices. The Company does not have purchase options to acquire the leasehold land and buildings at the end of the lease terms.

#### **13. LONG-TERM BORROWINGS**

	December 31	
	2022	2021
Unsecured borrowings		
Bank loans Less: Discounts on government grants Less: Current portion	\$ 6,013,333 (39,397) (1,213,889)	\$ 3,510,000 (34,203) (166,666)
	<u>\$ 4,760,047</u>	<u>\$ 3,309,131</u>

In March 2020, the Company obtained a letter of approval from the Ministry of Economic Affairs (MOEA) under the "Action Plan for Accelerated Investment by Domestic Corporations", which stipulates that the Company should complete its investment within three years from the date of approval.

The Company entered into credit agreements with banks under the "Action Plan for Accelerated Investment by Domestic Corporations", and the interest rate for the first \$2 billion of the allocation was reduced by 0.5% of the two-year fixed deposit interest rate of Chunghwa Post Co., Ltd. after the mark up, and 0.3% thereafter.

As of December 31, 2022, the Company acquired preferential interest rate loan subsidized by the government of \$6,180,000 thousand, and the loan proceeds are used to fund qualifying capital expenditure. The loan is repayable over a period of five years from the date of the first drawdown to December 2027, where repayment of interest will be made in monthly installments for the first two years and the principal will be repaid in equal monthly installments starting from the third year. Using the prevailing market interest rate at an equivalent loan rate of 0.9%, 1,15%, 1.4% and 1.525%, respectively, the fair value of the loan was estimated at \$6,109,777 thousand on initial recognition. The difference of \$70,223 thousand between the proceeds and the fair value of the loan was the benefit derived from the preferential interest rate loan and had been recognized as deferred revenue. The revenue was offset against interest expense on a monthly basis over the loan period. The amount offset against interest expense was \$15,545 thousand and \$13,386 thousand for the years ended December 31, 2022 and 2021, respectively.

Under the bank loan agreement, the Company has to meet certain financial covenants. As of December 31, 2022, such financial covenants were not breached.

#### **15. RETIREMENT BENEFIT PLANS**

The Company adopted a pension plan under the Labor Pension Act (LPA), which is a state-managed defined contribution plan. Under the LPA, the Company makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

#### 16. EQUITY

a. Capital stock

•	December 31	
	2022	2021
Authorized stock (in thousands) Authorized capital Issued and paid stock (in thousands) Issued capital	<u>400,000</u> <u>\$ 4,000,000</u> <u>315,534</u> <u>\$ 3,155,341</u>	400,000 \$ 4,000,000 293,299 \$ 2,932,991

A holder of issued common stock with a par value of NT\$10 is entitled to vote and to receive dividends.

The change in the Company's capital stock is mainly due to the issuance of ordinary shares for cash and the exercise of employee share options.

The Company resolved in the Board of Directors' meeting on April 12, 2022 to issue 21,020 thousand new shares for public subscription and underwriting prior to the initial listing with a par value of NT\$10 per share. A total of 14,800 thousand shares were issued at a premium price of NT\$333.43 per share based on the weighted average price at the auction and a total of 3,700 thousand shares were issued at a premium price of NT\$290 per share for the public subscription and underwriting. After the capital increase, the paid-in share capital was \$3,146,581 thousand. The above issuance was declared effective by the TWSE on April 28, 2022 and the subscription base date was June 28, 2022.

b. Capital surplus

	December 31	
	2022	2021
May be used to offset a deficit, distributed as cash dividends, or transferred to share capital (Note)		
Issuance of ordinary shares Employee share options exercised Donations	\$ 7,238,415 44,945 12,893	\$ 701,925 6,781 12,893
May only be used to offset a deficit		
Donations - unclaimed dividend	824	762
May not be used for any purpose		
Compensation cost of employee share options	7,876	10,438
	<u>\$ 7,304,953</u>	<u>\$ 732,799</u>

Note: Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital.

c. Retained earnings and dividend policy

Under the dividend policy as set forth in the Company's Articles, where the Company made profit in a fiscal year, the profit shall be first utilized for paying taxes, offsetting losses of previous years, setting aside as legal reserve 10% of the remaining profit, and setting aside or reversing special reserve in accordance with the laws and regulations until the accumulated legal reserve equals the Company's paid-in capital. Any remaining profit together with any undistributed retained earnings shall be used by the Company's Board of Directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for distribution of dividends and bonuses to shareholders.

For the policy on the profit sharing bonus for employees and remuneration of directors, refer to Note 18(g).

Any appropriations of the profits are subject to shareholders' approval in the following year.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Company's paid-in capital. The legal reserve may be used to offset deficits. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of earnings for 2021 and 2020, which were approved in the shareholders' meetings on May 24, 2022, and July 22, 2021, respectively, were as follows:

	Appropriatio	n of Earnings	Cas	h Divider (N	nds Per T\$)	Share
	For the Ye Decem	ear Ended Iber 31	]	For the Y Decem	ear End iber 31	led
	2021	2020	2	021		020
Legal reserve Cash dividends	\$ 216,528 586,712	\$ 209,054 582,306	\$	2.0	\$	2.0

The appropriations of earnings for 2022 proposed by the Company's Board of Directors on February 22, 2023, were as follows:

	The Appropriation of Earnings	Per	Dividends • Share NT\$)
Legal reserve	\$ 176,580		
Cash dividends	631,068	\$	2.0

The cash dividends per share for 2020 was adjusted to \$1.98, mainly due to the exercise of employee share options on August 28, 2021. The cash dividends per share for 2021 was adjusted to \$1.86, mainly due to the exercise of employee share options on July 22, 2022. The appropriation of earnings for 2022 is subject to the resolution of the shareholders in the shareholders' meeting to be held on May 24, 2023.

#### **17. OPERATING REVENUE**

a. Contract information

For revenue generated from manufacturing of color filter according to customized specifications agreed in the contractual agreement, because the customers have obtained control over the products during the provision of services, the Company's revenue from service contracts is recognized over time. b. Disaggregation of revenue from contracts with customers

		For the Year Ended December 31		
Production		2022	2021	
Micro-Optical Elements		\$ 4,600,796	\$ 3,936,619	
Image Sensor		4,320,594	4,947,328	
Others		155,758	145,231

United States		42,209	25,975	
		<u>\$ 9,077,148</u>	<u>\$ 9,029,178</u>	
Contract balances				
	December 31, 2022	December 31, 2021	January 1, 2021	
Contract assets Contract liabilities	<u>\$ 314,099</u> <u>\$ 9,085</u>	<u>\$248,248</u> \$9,994	<u>\$ 137,376</u> \$ 5,823	
	φ <b>2,000</b>	¥ 2,227 I	<u> </u>	

The changes in the balance of contract assets and contract liabilities primarily result from the timing difference between the satisfaction of performance obligation and the customer's payment.

The Company recognized revenue from the beginning balance of contract liability, which amounted to \$7,300 thousand and \$4,688 thousand for the years ended December 31, 2022 and 2021, respectively.

d. Refund liabilities

Estimated sales returns and other allowances are made and adjusted based on historical experience and the consideration of varying contractual terms, which amounted to \$36,118 thousand and \$(17,642) thousand for the years ended December 31, 2022 and 2021, respectively. As of December 31, 2022 and 2021, the aforementioned refund liabilities amounted to \$39,557 thousand and \$37,913 thousand, respectively, which were classified under accrued expenses and other current liabilities.

# g. Compensation of employees and remuneration of directors

The Company accrues compensation of employees and remuneration of directors at rates of no less than 1% and no higher than 2%, respectively, of net profit before income tax, compensation of employees, and remuneration of directors.

If there is a change in the proposed amounts after the annual financial statements are authorized for issue, the differences are recorded as a change in the accounting estimate.

The compensation of employees and the remuneration of directors are as follows:

	For the Year Ended December 31		
	2022	2021	
Compensation of employees Remuneration of directors	<u>\$ 353,159</u> <u>\$ 3,240</u>	<u>\$ 433,056</u> <u>\$ 2,700</u>	

The appropriations of employees' compensation and remuneration of directors for 2022 and 2021 that were resolved by the Board of Directors on February 22, 2023 and February 23, 2022, respectively, are \$353,159 thousand and \$433,056 thousand, and \$3,240 thousand and \$2,674 thousand, respectively.

There was no significant difference between the actual amounts of compensation of employees and remuneration of directors the aforementioned resolutions paid and the expenses recognized for the years ended December 31, 2022 and 2021.

Information on the compensation of employees and remuneration of directors resolved by the Company's Board of Directors is available at the Market Observation Post System website of the Taiwan Stock Exchange.

	<u>\$ 11,399</u>	<u>\$ 10,161</u>	<u>\$ 21,560</u>

#### d. Income tax examination

The tax authorities have examined income tax returns of the Company through 2020.

#### 20. EARNINGS PER SHARE

	For the Year Ended December 31		
	2022	2021	
Basic earnings per share Diluted earnings per share	$\frac{\$ 5.80}{\$ 5.71}$	<u>\$ 7.41</u> \$ 7.24	

Earnings per share is computed as follows:

	Amounts (Numerator)	Number of Stocks (Denominator) (In Thousands)	Earnings Per Share (NT\$)
For the year ended December 31, 2022			
Basic EPS Net income Effect of potentially dilutive common stock	\$ 1,765,795	304,510 <u>4,565</u>	<u>\$ 5.80</u>
Diluted EPS Net income available to common shareholders plus effect of potentially dilutive common stock	<u>\$ 1,765,795</u>	309,075	<u>\$ 5.71</u>
For the year ended December 31, 2021			
Basic EPS Net income Effect of potentially dilutive common stock	\$ 2,165,280 	292,028 <u>6,968</u>	<u>\$ 7.41</u>
Diluted EPS Net income available to common shareholders plus effect of potentially dilutive common stock	<u>\$ 2,165,280</u>	<u> </u>	<u>\$ 7.24</u>

If the Company offered to settle the obligation by cash or by issuing stocks, the profit sharing bonus for employees will be settled in stocks and the resulting potential stocks will be included in the weighted average number of stocks outstanding in the calculation of diluted EPS as the stocks have a dilutive effect. Such dilutive effect of the potential stocks is included in the calculation of diluted EPS until the profit sharing bonus for employees to be settled in the form of common stocks is approved in the following year.

#### 21. SHARE-BASED PAYMENT ARRANGEMENTS

Qualified employees were granted 460 options in April 2020, 5,424 options in July 2019 and 72 options in December 2019. Each option entitles the holder the right to subscribe for one thousand ordinary shares of the Company. The options granted are valid for 6 years and exercisable at certain percentages after the second year from the grant date. The options were granted at an exercise price equal to NT\$20. For any subsequent changes in the Company's ordinary shares, the exercise price is adjusted accordingly.

Information on employee share options was as follows:

	For the Year Ended December 31			
	2022		2021	
	Number of Options (In Thousands of Units)	Weighted- average Exercise Price (\$)	Number of Options (In Thousands of Units)	Weighted- average Exercise Price (\$)
Balance at January 1 Options exercised Options forfeited	3,466 (1,215) (110)	\$ 18.00 16.63	5,780 (2,146) (168)	\$ 20.00 19.84
Balance at December 31	2,141		3,466	
Options exercisable, end of the year	770		518	

The weighted-average share prices on the exercise date of the share options from January 1, 2022 to December 31, 2022 was \$342.

Information on outstanding options was as follows:

	December 31			
	2	2022	2	2021
Range of exercise price (\$)	\$	16.1	\$	18
Weighted-average remaining contractual life (in years)		2.59		3.58

Options are priced using the Black-Scholes pricing model, and the inputs to the model are as follows:

	April 2020	December 2019	July 2019
Grant-date share price	24.79	17.42	17.42
Exercise price	20	20	20
Expected volatility	27.18%-28.74%	28.30%-28.48%	28.30-28.48%
Expected life (in years)	4-5	4-5	4-5
Expected dividend yield	-	-	-
Risk-free interest rate	0.40%-0.42%	0.58%-0.61%	0.58%-0.61%

The stock price on the grant date is evaluated by the future cash flow method, and the expected volatility is based on the average annualized standard deviation of the daily rate of return of the industry. Compensation costs recognized were \$1,985 thousand and \$7,788 thousand for the years ended December 31, 2022 and 2021, respectively.

The Company resolved in the Board of Directors' meeting on April 12, 2022 to issue new shares for public underwriting prior to the initial listing. According to the provisions of Article 267 of the Company Act, 11.99% of the total new shares issued totaling 2,520 thousand shares were reserved for employees' subscription. The employee stock options are fully vested on the grant date.
The grant date of the above employee stock options on cash capital increase is June 17, 2022. The Company calculates the fair value of stock options according to the Black-Scholes-Merton option evaluation model, and the input values used are as follows:

Grant-date share price	\$	301.76
Exercise price	\$	290.00
Expected volatility		47.03%
Expected life (in years)		0.01
Expected dividend yield		-
Risk-free interest rate		1.60%
Fair value of stock options on the grant date (per share)	<u>\$</u>	13.34

The stock price on the grant date is evaluated by the future cash flow method, and the expected volatility is based on the average annualized standard deviation of the daily rate of return of the industry. Compensation costs recognized were \$33,617 thousand for the year ended December 31, 2022.

## 22. CASH FLOW INFORMATION

a. Non-cash transactions

	Years Ended December 31		
	2022	2021	
Additions of property, plant and equipment Less: Amounts included in the cost of qualifying assets Changes in payables for purchases of equipment	\$ 4,390,850 (23,334) (241,293)	\$ 4,028,203 (5,917) (64,787)	
Payments for acquisition of property, plant and equipment	<u>\$ 4,126,223</u>	<u>\$ 3,957,499</u>	

#### b. Reconciliation of liabilities arising from financing activities

				Non-cash changes	:	
	Balance as of January 1, 2022	Financing Cash Flow	Foreign Exchange Movement	Leases Modifications	Other Changes (Note)	Balance as of December 31, 2022
Guarantee deposits Lease liabilities Long-term borrowings	\$ 5,193 249,399 <u>3,475,797</u>	\$ - (81,950) 	\$ 66 - -	\$ - 147,271 -	\$ - 3,920 (5,194)	\$ 5,259 318,640 <u>5,973,936</u>
Total	<u>\$ 3,730,389</u>	<u>\$ 2,421,383</u>	<u>\$ 66</u>	<u>\$ 147,271</u>	<u>\$ (1,274</u> )	<u>\$ 6,297,835</u>
				Non-cash changes		
	Balance as of January 1, 2021	Financing Cash Flow	Foreign Exchange Movement	Leases Modifications	Other Changes (Note)	Balance as of December 31, 2021
Guarantee deposits Lease liabilities Long-term borrowings	\$ 5,069 322,540 1,967,611	\$ 124 (80,676) <u>1,510,000</u>	\$ - - -	\$ - 101	\$	\$
Total	<u>\$ 2,295,220</u>	<u>\$ 1,429,448</u>	<u>\$</u>	<u>\$ 101</u>	<u>\$ 5,620</u>	<u>\$ 3,730,389</u>

Note: Other changes include financial cost of lease liabilities, right-of-use assets obtained and long-term bank loan interest subsidy recognized as deferred revenue.

#### 23. CAPITAL MANAGEMENT

The Company manages its capital to ensure that it will be able to continue as going concerns while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The capital structure of the Company consists of equity of the Company (comprising issued capital, reserves and retained earnings).

## 24. FINANCIAL INSTRUMENTS

a. Fair value of financial instruments not measured at fair value

Management believes that the carrying amounts of financial assets and financial liabilities not carried at fair value approximate their fair values or their fair values cannot be reliably measured.

- b. Fair value of financial instruments measured at fair value on a recurring basis
  - 1) Fair value hierarchy

December 31, 2022

	Level 1	Level 2	Level 3	Total
Financial assets at FVTPL				
Derivative financial assets	<u>\$ -</u>	<u>\$ 13,257</u>	<u>\$ -</u>	<u>\$ 13,257</u>
Financial liabilities at FVTPL				
Derivative financial liabilities	<u>\$ -</u>	<u>\$ 2,079</u>	<u>\$</u>	<u>\$ 2,079</u>
December 31, 2021				
	Level 1	Level 2	Level 3	Total
Financial assets at FVTPL				
Derivative financial assets	<u>\$</u>	<u>\$ 6,003</u>	<u>\$ -</u>	<u>\$ 6,003</u>
Financial liabilities at FVTPL				
Derivative financial liabilities	<u>\$</u>	<u>\$ 86</u>	<u>\$</u>	<u>\$ 86</u>

There were no transfers between Levels 1 and 2 for the years ended December 31, 2022 and 2021.

The Company did not acquire or dispose of financial assets measured at fair value in Level 3 for the years ended December 31, 2022 and 2021.

#### 2) Valuation techniques and inputs applied for Level 2 fair value measurement

Derivative instruments - forward exchange contracts are discounted using the cash flow method. Future cash flows are estimated based on observable forward exchange rates at the end of the year and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.

c. Categories of financial instruments

	December 31		
	2022	2021	
Financial assets			
FVTPL Held for trading Amortized cost (1)	\$ 13,257 12,817,211	\$	
Financial liabilities			
FVTPL Held for trading Amortized cost (2)	2,079 7,540,897	86 4,782,641	

- 1) Including financial assets at amortized cost, which comprise cash and cash equivalents, accounts receivable (including related parties), other receivables (including related parties) and other non-current assets.
- 2) Including accounts payable, payables to contractors and equipment suppliers, accrued expenses and other current liabilities, long-term borrowings (including current portion of long-term borrowings) and guarantee deposits.
- d. Financial risk management objectives and policies

The Company monitors and manages the financial risks associated with its operations, which include foreign currency risk, interest rate risk, credit risk and liquidity risk.

The Company seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of derivative financial instruments and significant financial rules and plans are regulated by the Company's Board of Directors and reviewed by the Company's internal control system. The Company does not engage in transactions of financial instruments (including derivative financial instruments) for speculative purposes.

1) Market risk

The Company's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates (see (a) below) and interest rates (see (b) below).

The Company entered into a variety of derivative financial instruments to manage its exposure to foreign currency risk and interest rate risk.

There has been no change to the Company's exposure to market risks or the manner in which these risks are managed and measured.

a) Foreign currency risk

A portion of the Company's cash inflows and outflows are denominated in foreign currencies and therefore have a natural hedging effect. The Company manages exchange rate risk for hedging purposes, not for profit-making.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities and of the derivatives exposed to foreign currency risk at the end of the year are set out in Note 28.

#### Sensitivity analysis

The Company is mainly exposed to the U.S. dollar and Japanese yen.

The sensitivity analysis of foreign currency exchange rate risk is based on the unfavorable impact of foreign currency monetary items, including cash, accounts receivable, other receivables, accounts payable and other payables, as of the end of the reporting period. If the unfavorable change in foreign currencies reaches 5%, the Company's net income will decrease by \$56,660 thousand and \$76,479 thousand in 2022 and 2021, respectively.

#### b) Interest rate risk

The Company is exposed to interest rate risk because entities in the Company borrow funds at both fixed and floating interest rates.

The carrying amounts of the Company's financial assets and financial liabilities with exposure to interest rates at the end of the year were as follows:

	Dece	December 31		
	2022 2021			
Fair value interest rate risk Financial assets	\$ 10,643,339	\$ 2,405,031		
Cash flow interest rate risk Financial assets Financial liabilities	1,326,414 5,973,936	847,894 3,475,797		

The Company's fixed-rate financial assets are not included in the analysis of interest rate risk with fair value because they are measured at amortized cost.

The sensitivity analyses below were determined based on the Company's exposure to interest rates for non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis was prepared assuming the amount of the liabilities outstanding at the end of the reporting period was outstanding for the whole year.

If interest rates increase by 1% and all other variables were held constant, the Company's net profit before income tax for the years ended December 31, 2022 and 2021 would have decreased by \$46,475 thousand and \$26,279 thousand, respectively, which was mainly a result of variable-rate borrowings and variable-rate deposits.

## 2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Company. At the end of the year, the Company's maximum exposure to credit risk, which would cause a financial loss to the Company due to the failure of the counterparty to discharge its obligation and due to the financial guarantees provided by the Company, could be equal to the carrying amount of the respective recognized financial assets as stated in the balance sheets.

#### Business-related credit risk

The Company's accounts receivable are from its five largest customers. The majority of the Company's outstanding accounts receivable are not covered by collaterals or guarantees. While the Company has procedures to monitor and manage credit risk exposure on accounts receivable, there

is no assurance such procedures will effectively eliminate losses resulting from its credit risk. This risk is heightened during periods when economic conditions worsen.

As of December 31, 2022 and 2021, the Company's five largest customers accounted for 88% and 83% of accounts receivable respectively.

#### 3) Liquidity risk

The Company manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Company's operations and mitigate the effects of fluctuations in cash flows.

#### Liquidity and interest rate risk tables

The following table details the analysis of the remaining contractual maturities of the Company's non-derivative financial liabilities with contractual repayment periods, which are based on the earliest possible date on which the Company can be required to make repayment, and is prepared using the undiscounted cash flows of the financial liabilities, which include cash flows of interest and principal.

The maturity dates of the Company's other non-derivative financial liabilities were based on the agreed upon repayment dates.

#### December 31, 2022

		<u>\$ 2,838</u>	<u>\$ 2,838</u>			

For the sales transactions between the Company and its related parties, the transaction prices and collection terms are not materially different from those of non-related parties. For other related party transactions, price and terms were determined in accordance with mutual agreements.

The Company rented/leased property, plant and equipment to/from related parties. The lease terms are determined in accordance with mutual agreements. The rentals were paid monthly; the related rentals were classified under other income and manufacturing expenses.

For the years ended December 31, 2022 and 2021, no impairment loss was recognized for contract assets from related parties.

#### m. Compensation of key management personnel

The compensation of directors and other key management personnel were as follows:

	For the Year Ended December 31			
Short-term employee benefits Post-employment benefits	2022	2021		
	\$ 89,328 <u>811</u>	\$ 94,632 <u>680</u>		
	<u>\$ 90,139</u>	<u>\$ 95,312</u>		

The compensation of directors and other key management personnel were determined by the Compensation Committee in accordance with the value of the individual's participation in and contribution to the operations of the Company and is determined by reference to the usual industry standards.

## 26. ASSETS PLEDGED AS COLLATERAL OR FOR SECURITY

As of December 31, 2022 and 2021, the Company provided certificates of deposits amounting to \$20,311 thousand, which were recorded in other non-current assets as collateral mainly for land lease agreements and tariff guarantees.

## 27. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

In addition to those disclosed in other notes, significant contingent liabilities and unrecognized commitments of the Company at December 31, 2022 and 2021 were as follows:

a. Unrecognized commitments

	Decem	ber 31
	2022	2021
Acquisition of property, plant and equipment	<u>\$ 683,450</u>	<u>\$ 2,184,568</u>

b. The Company entered into long-term energy purchase agreements with supplier. The relative fulfillment period, quantity and price are specified in the agreement.

## 28. EXCHANGE RATE INFORMATION OF FOREIGN-CURRENCY DENOMINATED FINANCIAL ASSETS AND LIABILITIES

The significant financial assets and financial liabilities denominated in foreign currencies were as follows:

December 31, 2022

	Foreign Currencies (In Thousands)	Exchange Rate (Note)	
Financial assets			
Monetary items USD JPY EUR	\$ 44,280 1,492,496 74	30.713 0.2331 32.838	
Financial liabilities			
Monetary items USD JPY EUR	7,337 1,509,112	30.713 0.2331 32.838	

December 31, 2021

	Foreign Currencies (In Thousands)	Exchange Rate (Note)
Financial assets		
Monetary items USD JPY EUR	\$ 58,883 155,921 293	27.674 0.2414 31.460
Financial liabilities		
Monetary items USD JPY EUR	3,604 155,657 302	27.674 0.2414 31.460

Note: Please refer to Note 18 for foreign exchange gain and loss for the years ended December 31, 2022 and 2021. It is impractical to disclose net foreign exchange gains (losses) by each significant foreign currency due to the variety of the foreign currency transactions.

#### **29. OPERATING SEGMENT INFORMATION**

a. Operating segments, segment revenue and operating results

The Company's chief operating decision maker periodically reviews operating results, focusing on operating income generated by color filter segment. Operating results are used for resource allocation and performance assessment. As a result, the Company has only one operating segment, the color filter segment. The color filter segment engages mainly in the researching, developing, designing, manufacturing, selling, packaging and testing of color filter products.

The basis for the measurement of income from operations is the same as those for the preparation of financial statements. Please refer to the statements of comprehensive income for the related segment revenue and operating results.

b. Geographical information of operating revenue is as follows:

	For the Year Ended December 31		
	2022	2021	
Asia	\$ 7,877,133	\$ 7,695,926	
Taiwan	1,106,615	1,252,207	
Europe	51,191	55,070	
United States	42,209	25,975	
	<u>\$ 9,077,148</u>	<u>\$ 9,029,178</u>	

The Company's revenue by geography is computed based on the recipient's region and its non-current assets are all located in Taiwan. Hence, it is not required to disclose information about non-current assets.

c. Revenue from major products and services

	For the Year Ended December 31			
Micro-Optical Elements	2022	2021		
Micro-Optical Elements	\$ 4,600,796	\$ 3,936,619		
Image Sensor	4,320,594	4,947,328		
Others	155,758	145,231		
	<u>\$ 9,077,148</u>	<u>\$ 9,029,178</u>		

d. Information about major customers

Major customers representing at least 10% of net revenue:

	For the	For the Year Ended December 31				
	2022	2022 2021				
	Amount	%	Amount	%		
Customer A	\$ 3,621,402	40	\$ 2,508,073	28		
Customer B	2,590,800	29	3,187,407	35		

#### **30. ADDITIONAL DISCLOSURES**

- a. Significant transactions

Note 1: For the years ended December 31, 2022 and 2021, the Company had 1,457 and 1,337 employees, respectively. There were 5 non-employee directors.

Note 2: Average labor costs for the years ended December 31, 2022 and 2021 were \$1,470 thousand and \$1,536 thousand, respectively.

Note 3: Average salaries and bonuses for the years ended December 31, 2022 and 2021 were \$1,255 thousand and \$1,340 thousand, respectively. The average salary and bonus decreased by 6% year over year.

- Note 4: The Company did not have any remuneration of supervisors for the years ended December 31, 2022 and 2021. The Company has established Audit Committee on March 4, 2021, and the remuneration of independent directors has been incorporated into the remuneration to directors.
- Note 5: The Company's compensation policies: The Company's employees are entitled to a comprehensive compensation and benefits program above the industry average. The compensation program includes a monthly salary, business performance bonuses based on quarterly business results, and a profit sharing bonus based on annual profits. The Company determines the amount of the business performance bonus and profit sharing based on operating results and industry practice in the R.O.C. The amount and distribution of the bonus and profit sharing are recommended by the Compensation Committee to the Board of Directors for approval. Individual rewards are based on each employee's job responsibility, contribution and performance.
- Note 6: The total compensation paid to the executive officers is decided based on their job responsibility, contribution, company performance and projected future risks the Company will face. It is reviewed by the Compensation Committee then submitted to the Board of Directors for approval.
- Note 7: According to the Company's Articles of Incorporation, the Board of Directors is authorized to determine the salary for the Chairman and Directors, taking into account the extent and value of the services provided for the management of the Company and the standards of the industry within the R.O.C. and overseas. The Articles of Incorporation also provide that the compensation to directors shall be no more than 2% of annual profits. The distribution of compensation to directors shall be made in accordance with the Company's "Rules for Distribution of Compensation and Honorarium to Directors" based on the following principles: (1) independent directors receive compensation in accordance with the policy; (2) the remuneration received by each non-independent director shall not exceed the total remuneration received by each independent director.
